General

Traditional Minor Subdivision – The division of land into three or fewer lots when the subdivision does not constitute a no review subdivision and does not require significant infrastructure improvements. Significant infrastructure improvements include, but is not limited to, a road installed to NCDOT standards, fire hydrant, and/or a fire pond.

Step 1: Application Submittal and Acceptance

The applicant must submit a complete application packet. A complete application packet consists of the following:

- Application Fee (\$____/lot)
- One copy of the final plat drawn to scale. The plat shall include the items listed in the design standards checklist.
- For a complete list of submittal requirements see the Minor Subdivision submittal checklist.

On receiving an application, staff shall, within ten business days, determine whether the application is complete or incomplete. A complete application contains all the information and materials listed above, and is in sufficient detail to evaluate and determine whether it complies with appropriate review standards. If an application is determined to be incomplete, the applicant may correct the deficiencies and resubmit the application for completeness determination. Failure to resubmit a complete application within 45 calendar days after being determined incomplete will result in the application being considered withdrawn.

Step 2: Staff Review Decision Making Standards

A minor subdivision shall be approved on a finding that:

- It will result in three or fewer lots created from the parent parcel or tract (including the residual parcel or tract of less than ten acres in area), as it existed on April 2, 1989.
- It does not create a private access street serving more than two lots.
- Any private access street complies with Private Access Street Standards in the UDO.
- It does not require significant infrastructure improvements; and
- It does not front an existing NCDOT maintained public street unless it is a family subdivision or nonresidential minor subdivision.

Step 3: Final Plat Signature and Recordation

Once the final plat is reviewed and corrections, if any, are made, the following must be submitted:
